Packware® Corporation

- Use the world's leading cortex-A9 quad core CPU. 360-degree omnibearing printing, no dead hand.

- 600dpi high resolution printing. Built-in SD card, permanent storage of information.

- Dual nozzle design (DSND).
When the printing quality drops, you can manually switch to another nozzle.

- Easy to operate, no special technicians are required, and it is guaranteed to learn and grasp in 30 minutes. Removable card gate design, realizing plug and play.

- 10 hours long standby time.
Multiple password protection to realize worry-free customer management.

- Built-in print head self-test, code reading, cleaning function. Attached exclusive toolbox, hand-held coding accessories are all equipped.

HAND HELD INKJET PRINTER

SPECIFICATIONS

Print Head	Thermal inkjet 2.5
CPU	Quad core 1.4GHz
Operation System	Linux
Print Distance	Best quality with 2-5mm
Interface	USB, TYPE-C
Print Resolution	600dpi Maximum
Weight	GW 0.45KG
Dimension	215*125*40mm
Battery	2200mAh @ DC8.4V
Ink Type	Water-based/42ml, Solvent/42ml
Material of Printer	ABS+PC
Print Height	2-12.7mm
Language	Chinese, English, Japanese, Turkish, Arabic, Korean, Spanish, French, Italian and so on
Adapter	AC input 100~240V; DC output 16.8V/2A
Ink Color	Black, White, Red, Yellow, Blue, Green, Invisible, UV
Print Content	Chinese, English, NumberS, Symbols, QR code, Bar code, Pictures, Dates, Counter
Print Media	Boards, Carton, Stone, Pipe, Cable, Metal, Plastic, Electronic, Automotive parts
Operational Environment	Temperature 0-45℃ (The best:20-30℃) Humidity 40%-60%Rh

APPLICATION

| Facemask | Metal | Carton box | Cardboard | Pet bottle | Plastic bag |
